

Special Issue of Oceanography Magazine for March 2012

***Interdisciplinary Processes at Mid-Ocean Ridges:
Ridge 2000 Program Research***

Co-Editors: Daniel J. Fornari, James Holden, Lauren Mullineaux, Maya Tolstoy, Stace Beaulieu

Primary co-editor contact HIGHLIGHTED

PAGE LENGTH HIGHLIGHTED REVISED – new page count is 193

GRAPHICS FIGURE ASSISTANCE HIGHLIGHTED

**Draft Table of Contents
(June 20, 2011)**

1. *Introduction to the special issue* (Short Article) 6 2
Co-Editors
2. *From RIDGE to Ridge 2000: Collaborative research revealing the myriad, interlinked processes of oceanic spreading centers* (Short Article) 6 4
Daniel J. Fornari (with possible co-authoring by other RIDGE and R2K Program Chairs)
3. *Synthesis of research at the East Pacific Rise Integrated Study Site* (Full-length Article) 12 8
Scott White, Maya Tolstoy, Daniel Fornari, Mike Perfit, Adam Soule, Tim Shank, and other possible co-authors
4. *Synthesis of research at the Main Endeavour Field Integrated Study Site* (Full-length Article) 12 8
Deborah Kelley, Co-leader: Jim Holden, Contributors: Karen Bemis, Mairi Best, James Gill, Bob Lowell, Roger Nielsen, Ray Lee?, Verena Tunnicliffe?, Kim Juniper?, and other possible co-authors
5. *Synthesis of research at the Eastern Lau Spreading Center Integrated Study Site* (Full-length Article) 12 8
Jeffrey Seewald, Margaret Tivey, Anna-Louise Reysenbach, Mike Mottl, Stacy Kim, Charles Langmuir, Peter Michael, Charles Fisher, Pete Girguis, George Luther
6. *Geodynamic models of mantle flow and melt extraction at mid-ocean ridges* (Full length, 10-15 pages, Jack Cook 1 fig) Tolstoy 8
P.M. Gregg, L. B. Hebert, L. G. J. Montesi, and R. F. Katz (author order TBD based on final contribution)

7. *Segmentation of ridges and the crustal structure of spreading centers including axial magmatic systems* (Full-length article, assistance with 2 figs) 12 Fornari 8
Douglas Toomey, William Wilcock, Emilie Hooft, Troy Durant and Paul Wallace
8. *Active long-lived faults emerging along slow-spreading mid-ocean ridges* (Short Article Jack Cook 1 fig) 6 Fornari 4
D.K. Smith, J. Escartin, H. Schouten, and J.R. Cann
9. *Insights from seismic studies on the crustal magmatic system and hydrothermal flow at the EPR and Endeavour ISS* (Full-length article, 15 pages) Fornari 8
Suzanne Carbotte, J.P. Canales, M. Nedimovic, and H. Carton
10. *Recent advances in multichannel seismic techniques for academic research* (Short Article) 6 Fornari 2
Suzanne Carbotte, Helene Carton, John Mutter, J.P. Canales, and M. Nedimovic
11. *Event detection and response to submarine magmatic events* (Full-length Article) 12 Tolstoy 8
E.T. Baker, W.W. Chadwick, J. Cowen, R. Dziak, D. Fornari, and K. Rubin
12. *Acoustic monitoring of oceanic spreading centers – past, present and future* (Full-length Article) 12 Tolstoy 8
Robert Dziak, Del Bohnenstiehl, Deborah Smith
13. *Discovery and Study of Historical Deep Sea Volcanic Eruptions* (Full-length article) 12 Tolstoy 8
Ken Rubin, Adam Soule, Bob Embley, Bill Chadwick, Dan Fornari, Bob Dziak, Mike Perfit, Dave Clague, and Ed Baker
14. *The East Pacific Rise at 9°50' N: Magma-hydrothermal models using observational constraints* (Full-length, 16-18 pages, assist with 1 figure) Tolstoy 8
Robert P. Lowell, Leonid Germanovich and possible co-authors
15. *Buoyant Hydrothermal Plumes: quantifying fluxes and their interaction with the ambient ocean* (Full-length, 10-15 pages) Beaulieu 8
Daniela Di Iorio, Leonid Germanovich, Robert Lowell, William Lavelle, Peter Rona and Karen Bemis
16. *Diffuse Flow Processes at Oceanic Spreading Centers* (Short article, 4-6 pages) Holden 4
Karen Bemis and possible co-authors
17. *Towards an integrated view of biogeochemical processes at hydrothermal vents: advances in bioenergetic modeling, microbe-mineral interactions, and carbon flux estimates* (Full-length article, request 2 figures/graphics work) 12 Beaulieu 8
James F. Holden, John A. Breier, Karyn L. Rogers, Mitchell D. Schulte, and Brandy M. Toner

18. *Bioenergy applications of vent microbes* (2-page Box) Beaulieu
Peter Girguis and Jim Holden
19. *Chemoautotrophy at Deep-Sea Vents: Past, Present, and Future* (Full-length article, assistance with 2 figs) 12 Holden 8
Stefan Sievert, Costantino Vetriani, Dionysis Foustoukos, Jeff Seewald, and Craig Taylor
20. *Measurement of Oxidation-Reduction Status of Iron in Hydrothermal Fluxes* (2-page Box) Holden
Brandy M. Toner, Katrina J. Edwards, Olivier Rouxel, & Christopher R. German
21. *The role of megafaunal symbioses in shaping the geochemical milieu of diffuse hydrothermal flows* (??) 12 Holden 8 (I am not sure if Pete or George wants to lead this article)
Peter Girguis, George Luther, Amy Gartman, Roxanne Beinart, Jon Sanders, Scott Wankel
22. *Energy transfer through food webs at hydrothermal vents: linking the lithosphere to the biosphere* (Full-length article, Tom Moore 1 fig) 12 Mullineaux 8
Brea Govenar, Derk C. Bergquist, and Charles R. Fisher
23. *Temporal and spatial community structure at RIDGE2000 Integrated Study Sites: integrating geological, chemical, and biological processes* (??) 12 Mullineaux (if she is co-author, then Holden) 8
T. Shank and potential unconfirmed coauthors: C Fisher, B. Govenar, G. Luther, R. Lutz, J. Marcus, L. Mullineaux, L. Podowski, S. Sievert, V. Tunnicliffe, C., Vetriani
24. *Larval exchange: vent life in the water column* (Full-length, 10-12 pages, Jack Cook 1 fig) Mullineaux 8
Diane Adams, Brea Govenar, and Shawn Arellano
25. *Prediction and subsequent discovery of ridge flank jets at the EPR* (Short article, 4-6 pages) Beaulieu 4
Bill Lavelle, Lauren Mullineaux, Andreas Thurnherr, Dennis McGillicuddy, and Jim Ledwell
26. *Using concurrently towed nets and acoustic Doppler current profiler to characterize the spatial distribution of zooplankton biomass in the vicinity of Endeavour Ridge, northeast Pacific* (Short Article) 6 Mullineaux 4
Brenda Burd and Rick Thomson
27. *Lau Basin Lagrangian float studies* (Full-length Article, Jack Cook 1 figure) 12 Beaulieu 8

Kevin Speer and Andreas Thurnherr

28. *The diffusely-heated bottom boundary layer at Endeavour Segment* (1-2 page Box)

Mullineaux

Susan L. Hautala, H. Paul Johnson, Matthew J. Pruis, Irene García-Berdeal, and Tor Bjorklund

29. *Direct observations of turbulence in a buoyant hydrothermal plume* (1-2 page Box)

Beaulieu

Andreas M. Thurnherr and Louis C. St. Laurent

30. *Ridge 2000: Integrated technologies for ocean science* (Short article, 6 pages) Fornari 4

Vicki Ferrini, James Kinsey, William Seyfried and co-authors

31. *Reaching diverse audiences with the story of mid-ocean ridges* (Full-length, 10 pages)

Holden 8

Elizabeth Goehring, Véronique Robigou, and Kathy Ellins

32. *The Ocean Biogeographic Information System - how can it help the study of deep-sea vent biogeography? – OR - Species diversity at deep-sea ridges and the Ocean Biogeographic Information System* (Short article, 4 pages) Mullineaux

J. Frederick Grassle and Edward Vanden Berghe

33. *R2K Media Bank / YouTube resources* (1 page)

V. Ferrini
